

K-Love is a great radio station. I listen to it everyday in the car and at home. It is also available to us on-line at our work stations during the day. I learn of local events as well as national events that are of interest to me. Other radio stations would not carry the information that is important to me.

I listen to K-Love because it provides the programming I enjoy. I enjoy the music as well as the other programming.

K-Love provides an important service to the public in this listening area. We have a large military population. With frequent moves, people can always count on finding a K-Love station that is the same programming no matter the location of the new duty station.

Please do not replace K-Love with a low power FM station.
